

KELLY SHIN

Suwanee, GA | (678)-696-9697 | kellyshin0505@gmail.com

EDUCATION

UNIVERSITY OF GEORGIA

Bachelor of Science
Major in Computer Science
GPA: 3.63/4.0
Dean's List

Athens, GA

Dec 2025

COURSEWORK

ALGORITHMS

Dec. 2024

- Studied algorithm design and analysis, including time complexity, sorting, and selection algorithms
- Applied advanced techniques like greedy algorithms, dynamic programming, and graph algorithms to solve real-world problems.
- Explored NP-completeness theory and proved properties for various decision problems.

DATA STRUCTURES

May 2024

- Covered the design, analysis, and implementation of data structures and algorithms, including lists, stacks, queues, trees, graphs, and dictionaries.
- Applied algorithm design strategies such as divide and conquer, greedy algorithms, and dynamic programming with a focus on time and space complexity.

SOFTWARE DEVELOPMENT

Dec. 2023

- Developed software in Java, using unix while emphasizing object-oriented programming in Java and developing efficient code through course assignments and projects.
- Used Git for version control, build management, debugging, and unit testing.

Other Notable Coursework: Computer Networks, Database Management

PROJECTS

GOOGLE CHROME TAB MANAGER

Oct. 2024

- A Chrome extension for efficient tab management using Chrome API
- Utilized JavaScript, HTML, and CSS

FFXIV MARKET DATA TOOL

July 2024

- A web application using the XIVAPI REST API to search and organize market data for a game (Final Fantasy 14)
- Utilized JavaScript, HTML, CSS, and REST API integration

SKILLS

Technical Skills: Java, C, HTML5, CSS, SQL, Unix, Git, Linux

General Skills: Figma, Microsoft Office, Google Workspace

Languages: Fluent in English; Conversational in Korean

WORK EXPERIENCE

EYE LEVEL LEARNING

Suwanee, GA

Math Teacher

June 2021– June 2024

- Taught math ranging from elementary to high school SAT levels while managing classes of 3-6 students
- Prepared teaching material to match the needs of individual students
